August 23, 2010

Memorandum

To: All Regional Directors, All Regions
Attention: Forestry/Fire Management

From: Director, Branch of Wildland Fire Management

Subject: Wildland Fire Program, Facility Construction FY-2010

A revised Wildland Fire Program Five Year Facility Plan was completed on August 10, 2010 per the Department of the Interior's (DOI's) request.

DOI bureaus jointly evaluate departmental project priorities on an annual basis. Out-year priorities are adjusted and updated based on objective criteria applied during the annual evaluation process.

New projects are required to have concurrence from the Regional facilities manager. This will ensure new fire facilities projects are in line with Construction-In-Progress Guidelines. Prior submissions all require updated forms and are to be completed by the requesting units. Please see the document "Department of the Interior Facilities Deferred Maintenance and Capital Improvements" on website <http://www.doi.gov/pam/assetmanage.html>

The Agencies/Tribes requesting facilities need to review the DOI Facilities Deferred Maintenance and Capital Improvements Guidelines. Please review the formula section in the DOI guidelines before completing and submitting facilities requests. No fire facilities should be submitted to BIA-NIFC lower than **600 points**.

All submissions need to be updated with current cost prior to **November 30, 2010**; therefore the plan for the out year is tentative at this time.

Please review the proposed project list for FY-2012 – FY-2016 and provide updates for both funding and projects.

WILDLAND FIRE FIVE YEAR CONSTRUCTION/DEFERRED MAINTENANCE PLAN SUMMARY 2012-2016					
revised 08/10/10					
PROJECT DESCRIPTION	STATE	BUREAU	DOI SCORE	COSTS	DOI RANK
2012 Projects					
Red Lake Office and Garage 1/2	MN	BIA	900	922,000	2
TOTAL 2012				922,000	
2013 Projects					
Navajo Helitack Facility	AZ	BIA	880	400,000	2
Lower Brule Fire Management Office and Engine Bays Phase 1/ 2	SD	BIA	876	1,000,000	3
